EDUCATION

Bachelor of Computer Science
MISR University | 2023 - present

Dedicated Computer Science student with a comprehensive foundation in both front-end and back-end web development. Proficient in HTML, CSS, JavaScript, and React for building responsive and accessible user interfaces, complemented by strong back-end skills in Node.js and Express for designing and consuming RESTful APIs. Experienced in Python for scripting and data processing tasks, with working knowledge of SQL and relational database design using PostgreSQL. Committed to writing clean, well-structured code and applying industry best practices. Seeking an opportunity to apply and further develop these skills within a professional development environment.

INTERNSHIPS

ittraining Experience

2026-Present

DEPI - Frontend Development Track Training

- Developed responsive web pages using HTML, CSS, and JavaScript.
- Built interactive UI components and applied JavaScript logic.
- Applied Object-Oriented Programming (OOP) concepts.

Academic Projects

Designed and developed a personal portfolio website using HTML, CSS, and JavaScript.

Created responsive layouts compatible with different screen sizes.

Implemented basic JavaScript functionality for user interaction

PROJECTS

E-commerce Store

Jan 2025 - Mar 2025

- Authentication — registration/login flows, JWT dual-token strategy, role table, all API endpoints, and security middleware
- Admin Dashboard
- Cart Logic — data models, guest cart (Redis), merge-on-login algorithm, all cart operations, price calculation pipeline, and stock validation
- Security — auth security, input validation

Technical skills

HTML
CSS
JavaScript

React
Express

MongoDb
Sql

STRENGTHS AND EXPERTISE

Teamwork
Effective Communication
Problem Solving

Quality Assurance
Time Management
Research

- Planning skills
- Decision-making
- Efficient Multitasking

LANGUAGES

- **English: Fluent**
- **Arabic:** Fluent (native language)
- **German:** Basic (limited working proficiency)
